

New Home Construction Inspections

The Hub offers a comprehensive and professional package that includes 5 separate inspections conducted at the end of each critical construction stage. In addition, we can also offer a Contract Review and Maintenance Inspection to complement the package.

Essential Stage Inspections

Base Stage

Frame Stage

Lock-up /
Pre Plaster

Fixing Stage

Final Inspection
(PCI)

Recommended Additional Services

Contract
Review

Maintenance
Inspection

- ✓ You'll receive a photographic record, highlighting the workmanship of the construction throughout the build.
- ✓ Our Inspectors specialise in reporting on building projects and can be your independent source through the process.
- ✓ You can engage us for just one inspection or the complete package. Discounts apply when booking all stages.
- ✓ Inspections can be timed to coincide with your progress payments so you can check that everything is running smoothly.
- ✓ You will receive a report after each inspection and can ask questions as you go.

For each of the five main stages of construction we check the following*:

*Note; The report does not cover any part of the building located beneath the ground surface (such as sewer, stormwater drains, plumbing, electrical, phone / data or gas).
